THEY helped US...

Over the years there have been several individuals, institutions and organizations that have increased their interactions and association with Calcutta Social Project. We are grateful to them as their help helped us transition into an organization where our beneficiaries are successful in every field they participate in. We have improved our infrastructures over time to be able to provide space for our children to ensure their development occurs in a holistic manner. We are grateful for the various skill development programs that have commenced and been successful throughout the years providing a way of employment to them. We take this opportunity to thank each and every past and present partner who have and will continue to be of support.
